

How to check in, check out,  
and make reservations for  
Deer hunting  
using the Fort Jackson  
iSportsman system

# The Homepage

The Check in process starts on the homepage. In order to start the process, you will select either the “My Account” tab, which will prompt you to enter your username and password, or the “Check-In/Out” tab, which will prompt you to enter your username and either your password or four digit pin. It is imperative that hunters read the information posted on the homepage before beginning the check in process. This will be the primary way that important news and information will be shared with hunters.

Welcome to the  
Fort Jackson
